

WATER PUMPS

Kodiak Power Equipment

General Purpose, Light Duty and High Pressure Water Pumps

Above: PWP2HX & PWP3HX Pumps

The PWP2HX and the PWP3HX are general purpose pumps for agriculture, irrigation and water transfer over a long distance. They are capable of handling solids up to 7mm (1/4") diameter and are powered by Honda engines featuring Oil Alert. They come standard with one strainer, two hose couplings, three hose bands and two seals.

The PWP1H is for light commercial use. It features a 4-stroke Honda engine that pumps up to 37 gpm, making it perfect for farm, home and light commercial dewatering applications.

The PWP2CH5C and PWP2SCH5050 are high pressure pumps ideal for irrigation, firefighting or any application where higher discharge heights are necessary. The fire kit is available separately.

*Other models are available. Please contact your local Corix Water Products branch for more information.
