PORTABLE GENERATORS

Kodiak Power Equipment

SGA and SGB Series Power Generators

The SGA Series are economical generators designed for portability and lower power requirements. Maximum power outputs range from 1950 watts to 2800 watts.

The SGB Series Generators are designed for higher power requirements and extended operation. Outputs range from 2800 watts to 12000 watts.

Please Note: SGB5500HXS and SGB7000HXS come with electric start.

Both series offer the following:

- Oil Alert feature shuts down engine if oil drops below a safe operating level
- Maintenance-free, brushless design
- Convenient, non-fuse breakers
- Voltage regulators
- Rubber-mounted engine and components
- Full-frame protection
- Automatic idle control (SGB Series only)
- DC output capability (SGB Series only)

*Other models are available. Please contact your local Corix Water Products branch for more information.
