

DUPLEX CONTROL PANELS

Liberty Pumps

AE-Series Duplex Pump Control With Alarm

The AE-Series provides reliable alternating operation of two pumps with automatic override control in residential or commercial installations. Common applications include sump basins, effluent or sewage pump chambers and lift stations. It is available in 3-float or 4-float configurations and NEMA1 (indoor) and NEMA4X (outdoor) enclosures.

- Magnetic motor contactors control the pump by switching hot electrical lines
- Internal HOA switches offer manual operation of the pump on the circuit board
- Green pump run indicators and control On/Off switch mounted on circuit board
- Internal Control/Alarm power-on indicator
- Circuit breakers provide pump disconnect and branch circuit protection
- Easy wiring terminal blocks
- Visual and audible alarm

SIMPLEX PUMP CONTROL WITH ALARM

Liberty Pumps

SX-Series Simplex Pump Control With Alarm

For reliable 3-float control of a single pump in residential or commercial installations, look to the SX-Series. Common applications include sump basins, effluent or sewage pump chambers and lift stations. The SX-Series is available with many options and NEMA1 (indoor) and NEMA4X (outdoor) enclosures.

- Magnetic motor contact controls the pump by switching hot electrical lines
- HOA switch offers manual operation of pump
- Green pump run indicator on circuit board
- Control and alarm fuses and power indicators
- Terminal block for easy wiring
- Red alarm indicator light
- Audible alarm

HIGH-LIQUID LEVEL ALARM

Liberty Pumps

ALM-2 High-Liquid Level Alarm

The ALM-2 remote liquid level alarm features a float switch activated panel with an 86 db horn and warning light to indicate a high water condition. It is easy to install and plugs into 115V outlet. It is used for sump, effluent or sewage applications.

- NEMA 1 (indoor)
- 115-volt operation with 9-volt battery back-up
- 86 db alarm
- Float switch activated panel
- Float included with a 20' cord

WIRELESS ALARM SYSTEM

Liberty Pumps

ALM-2R Wireless Alarm System

The ALM-2R is a remote wireless alarm for existing effluent and sewage applications. This new technology allows installation of an alarm in a pre-existing outdoor system without digging or trenching lines to the tank. A transmitter sends a signal to the alarm warning of a high-level condition. The ALM-2R saves labour and damage to expensive landscaping.

The ALM-2R alarm system monitors liquid levels in lift pump chambers, sump pump basins, holding tanks, sewage, agricultural and effluent filters and other water applications.

- No more cables, electrician or digging trenches
- Features a remote wireless transmitter with up to 150' range
- Automatic alarm reset
- 9-volt DC back-up
- Alarm test switch
- Green power and red alarm indicators
- Low battery chirp warning
- Loss of signal alarm
- Tested to comply with FCC standards

HIGH-LIQUID LEVEL ALARM

Liberty Pumps

ALM-2W High-Liquid Level Alarm

The ALM-2W is an indoor/outdoor float switch activated alarm that meets Type 3R water-tight standards. It features an alarm horn and red beacon.

- 115-volt operation
- Red alarm indicator light
- 88 db horn
- Alarm test switch
- Alarm silence switch
- Green power-on indicator
- Alarm float with 20' cord

HIGH-LIQUID LEVEL ALARM

Liberty Pumps

ALM-3W High-Liquid Level Alarm

The ALM-3W is a commercial-duty alarm for outdoor mounting. Float switch activated with horn and red beacon for high water level warning.

- Commercial-duty alarm for outdoor mounting
- 115-volt operation, direct wire
- Red alarm beacon, 360 visibility
- 88 db horn
- Alarm test-on-silence switch
- Alarm float with 20' cord
- Auxiliary contacts included

SUMP PUMP PITS

Liberty Pumps

SP1824 Sump Pump Pits

- High density polyethylene
- 18" x 24", 24 gallon capacity
- Molded hubs for connection of 4" drain pipe

JUNCTION BOX

Liberty Pumps

JB70 Junction Box

The JB70 Junction Box provides corrosion-resistant, weather-free protection for various electrical connections. It features NEMA 4X PVC with a hinged, lockable cover. (Liquid-tight connectors sold separately - #RCC8.)

*Other accessories such as pressure switches, tank tees, barbed fittings, well caps, etc. are available.
