

PRE-ASSEMBLED SEWAGE SYSTEMS

Liberty Pumps

Pro370-Series Pre-Assembled Simplex Sewage Systems

The Pro370-Series is the most advanced residential sewage package available. Liberty Pumps' flagship product, the Pro370-Series sewage package, arrives from the factory pre-assembled with QuickTree Technology saving valuable labour time at the job site. It also comes available "alarm-ready" with pre-mounted alarm floats. Give the 370 a try and see why more contractors are demanding Liberty Pumps.

- Separate inspection cover allows access to switches
- QuickTree float system allows easy removal of floats without pulling the pump
- Large 41 gallon capacity decreases switch cycles and improves pump life
- Molded torque-stops secure the pump in its proper position
- Integrally molded handles to ease transportation and installation

SPECIFICATIONS
