

WATER CONSERVATION TIPS

Indoor

Repair leaking toilets, faucets and pipes.

Replace older fixtures with new low-use water toilets, showerheads and faucets.

Only wash full loads in the dishwasher and washing machine.

Take shorter showers.

Never use the toilet as a wastebasket.

Outdoor

Collect water in a rain barrel for use on indoor and outdoor plants.

Check outdoor faucets, pipes and hoses for leaks.

Wash your car with a bucket and sponge instead of a hose.

Weed your lawn and garden regularly, as weeds compete with other plants for water.

Only water lawn when needed and in the early morning hours to minimize evaporation.
